

Enhancements

AR:

- Restored: Functionality for creating a posted batch in CYMA- user now has the option to export a batch to GL a posted batch in CYMA
- Fixed: AR Ticket drilldown on PSK tickets for the clubs using POExpress from Pro Shop Keepers- users can again drill down on PSK tickets and see all ticket detail
- Added: Functionality to allow for four possible options when using the Reference Field on the recurring charge in the reference column on statements:
 - 1.) Users select the box to use member charge reference when available and no text entered in the month end reference field - only pulls the reference info from the recurring charge- if a member has more than 1 recurring charge billed in a month and all have text in the reference field info on each charge, a separate record gets created in the batch
 - 2.) Users select the box to use member charge reference info and they also enter text in the month end reference field- anybody that does not have reference filed info on the member charge will get the text entered in the month end reference field- all others get the reference info from member charge
 - 3.) No text in the month end reference field and box to use member charge reference info not checked- no reference field info is placed recurring charges
 - 4.) Users enter text in the month end reference field and do not check box to use member charge reference field info- then all records get the reference info entered in the month end reference field

POS Terminal:

- Added: Functionality to allow a user to select an existing station name for a POS terminal during a new station set up
- Fixed: Menu item will print in black and modifiers can now be set to print in red or black as well as bold
- Fixed: Tickets will properly export out of a remote location

Guest Interfaces:

- Fixed: Hotel Concepts Interface to handle if a name has been misspelled then corrected, this change will be sent to ClubTec membership and will no longer create two records for the same member
- Added: Ability to export spouse only with full charge privileges to PSK
