

Please note the following: This version has some major cosmetic changes in Clubtec Manager and POS Terminal. All the forms in Manager have been upgraded to a new look and new icons have been added in Manager as well as POS Terminal. The functionality of the software is still the same, however with the new look, there are less tabs and more buttons.

Enhancements

Catering

- Fixed: Service Charge tab in Catering/Custom Club data loads and saves correctly
- Fixed: Recurring events labels to show all text
- Fixed: Contact buttons (phones, email and mail) to show correct coloring

POS Terminal

- Added: New graphic icons in terminal
- Added: Base total to the bottom summary section of all POS Terminal Reports
- Fixed: Terminal so that the revenue code long description instead of the short description writes to the tables

POS Manager

- Added: Copy Station and station Functionality to POS Manager station setup
- Fixed: Menu item setup so that when wildcards are on it displays the revenue code wildcard properly

Credit Card Setup

- Fixed: Credit Card module so it uses the correct settlement path

Accounts Receivable

- Added: Tax on service charge breakout on members statement

Example: If there is a service charge of \$2.00 and tax on the service charge of \$0.18, on the members statement \$2.00 will be in the service charge column and \$0.18 in the tax column

- Fixed: Tax on service charge for service charge calculation exempt members

Interfaces

- Fixed: Statement export bug that was doubling the service charge and leaving out the tax on chit detail
- Changed: PSK ticket drilldown to use multiple PSK databases. If it does not find a ticket in the main PSK64 database, it will look for it in other PSK databases if they exist

Misc

- Added: Enhanced logging to the startup routine for manager
- Added: Time stamps to Ticket Detail and Ticket Header (and the history files)
 - a. Closed Time in Ticket Header, for when the ticket is closed
 - b. Retendered Time in Ticket Header
 - c. Void Time in Ticket Header
 - d. Reopened Time in Ticket Header
 - e. Fired Time in Ticket Detail
