

Enhancements

Interfaces

- Ability to now set interface to update multiple PSK databases at a club

POS

- Purge History in Terminal has been enhanced with better logging (especially a “tattle tale” log of who did the purge, when, and from which station) and better warning messages.

Membership

- There is now a “none” option in the late fee dropdown.

Accounts Receivable

- The email control has been fixed to accept emails with an extension of more than 3 characters (such as ronnie@club.info) or emails with a sub-domain in the extensions (like ronnie@clubs.clubtec.info).
